

An affordable cloud platform *for* private clinics

www.bahmnilite.in

Why BahmniLite?

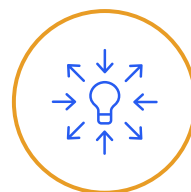

Affordable solution with cloud based multi-tenant.

ABDM ready.

No IT proficiency required on-site.

Based on a mature, proven solution that has been used in over 50 countries.

On demand, preloaded and preconfigured.

Made in India.
For the world.

What is BahmniLite?

Bahmni Lite is a lighter version of Bahmni EMR. Bahmni is a well known EMR for hospitals and it is currently being used in 50+ countries. This robust platform is now customised for clinic use (OPD or day-care practice). Additionally, Bahmni Lite is enhanced to meet the ABDM compliance and NHA's MVP requirements. As of today it is the only Open sourced (Digital Public Goods) platform currently available.

Bahmni Lite shall help you digitise your clinic operations and convenience to your patients as they can get their prescription and reports on phone.

Bahmni Lite shall help you digitise your clinic operations and convenience to your patients as they can get their prescription and reports on phone.
